## THE MANCHURIA FLOATED YESTERDAY

BIG STEAMER HAULED OFF THE  
WAIMANALO REEF AND IS NOW  
IN THE HARBOR.

After being twenty-seven days stranded on the reef at Waimanalo, the Pacific Mail S. S. Manchuria, Captain J. W. Saunders, was successfully floated yesterday afternoon and brought to the local harbor. The actual pulling operations to float the Manchuria took but a short time. The hauling was commenced on Friday, September 14, about 10 o'clock in the morning, and at 12:35 p. m. yesterday the big vessel slid into deep water. Captain John Metcalf, who has had charge of the salvaging operations, has added to his credit the biggest and most successful feat of the kind in his career. And the indications are now that he will have a second task of the kind in the wrecked Mongolia, the sister ship of the Manchuria. The Mongolia is now aground at Midway having struck at 9 p. m. on Saturday night.

Saturday night at Waimanalo reef the weather was squally. Shortly before

STEAMER MANCHURIA.

high tide early in the morning the S. S. Restorer, Revenue Cutter Manning and U. S. S. Iroquois tightened up on their lines on the Manchuria. The vessel was righted about day break and put on an even keel by means of pumping out the water. At 11:30 a. m. she began to slide seaward, and at 12:35 p. m. she came off the reef into deep water. The Manning immediately dropped her hawser, the hawser of the Iroquois parted, while the Restorer kept hauling on the big liner in order to get her out to sea. After the towing lines had been readjusted the Restorer started at a ten-knot clip and brought the Manchuria around Koko Head and Diamond Head to anchorage off the bell buoy.

The news that the Manchuria had been floated soon became known about the city and when the vessel was sighted off Koko Head by Diamond Head Charlie, he signalled to have three whistles blown. It was observed that the vessels were far out to sea when they rounded Diamond Head. The Manchuria had a heavy list to starboard.

The Manchuria used her own steering gear. She did not come into the harbor until this morning about 5:30 o'clock in the afternoon and the customs and health officials had not completed their examination of her.

Chief Officer M. H. Pillsbury was injured shortly after the vessel came to a stop. A wire cable parted and the end struck him in the face over the right eye, on the nose and about the mouth. It was at first thought that he had sustained fatal injuries, but Dr. Hoffman went to the vessel and after an examination discovered that the injury was not apparently serious.

Captain Metcalf thinks that the vessel will be repaired sufficiently within two weeks to be able to proceed under her own steam to San Francisco. A board of examination will probably be held to determine the necessary repairs to be made.

## LAND OPENING AT OMAPIO

MANY PORTUGUESE AND HAWAIIAN APPLICANTS FOR RIGHT OF PURCHASE LEASES.

KAHULUI, Maui, September 14.—

There was quite a rush at the office of the Sub-Land Agent at Kahului on Saturday morning last, the occasion being the opening of the government lots at Omapio, Kula. These lots were offered under the right of purchase lease system, requiring residence and cultivation, and there was great interest taken in them by Portuguese and Hawaiians. Several applicants had besieged the door of the Land Office for a whole week previously and the last day and night as many as fifteen applicants were encamped about the door. Most of these were Portuguese, but amongst them were several Hawaiian women. At 9 a. m. Saturday the office was opened for business and the lots were given out as fast as the necessary papers could be filed. There were twenty lots in all and of these fifteen were applied for, the remaining five lots being at the bottom of the tract and having no painful growing upon them did not seem to be in demand.

For some of the lots there were several applicants for each but the first man in took the prize, and so many went away disappointed. It remains to be seen now the conditions requiring home residence and cultivation will be fulfilled.

## SAT ON BEACH ALL NIGHT LONG

UNITED STATES MARSHAL HAD  
A LONG WAIT BEFORE SEIZING  
PIONEER.

United States Marshal Hendry spent the whole of last Friday night on the lonely beach at Waimanalo listening to what the wild waves were saying and waiting for daylight to enable him to see his way to the steam scow Pioneer. Hendry had some attachment papers to serve on her and arrived with them after dark. By that time the Manchuria had moved a couple of hundred feet or more and had thus changed all buoys and lights by means of which the sampan men were able to find their way in the dark, and none of them would attempt to row the marshal out.

It was a night of high surf. The Manchuria and the desired Pioneer, could be seen off shore, but the Japs said the Manchuria had spooled their guide marks by moving, and they wouldn't try a trip even to the Manchuria, much less to the Pioneer.

After doing some fruitless pursuing, the marshal took a seat on the

sand, and listened to the wild waves, which seemed to be saying that it would be a long time before dawn. The mosquitoes were saying the same thing and were passing votes of thanks to the federal court for sending them one of the best feasts they had had for a long time.

As soon as dawn came a sampan was chartered and the trip was successfully made.

### WILL NOT BUILD ROAD.

Superintendent Holloway has written a letter to John Lanakila, of Hawaii, stating in answer to inquiries that the department of public works does not propose to build the Waimanalo-Kona road appropriation for by the last Legislature. Governor Carter has decided that the construction of new roads is work that properly belongs to the counties.

### DIVISION NOT APPROVED.

Toronto Mail and Empire.  
Mr. Carnegie's conception of a grand Anglo-Saxon union is one in which the chimney corner is allotted to John Bull, and Uncle Sam takes over the "hull property."

### HE'LL PROBABLY WANT IT BACK.

Mexican Herald.  
A Pennsylvania borrowed carfare of a friend twelve years ago and now repays the loan. Who hath not had a friend? But not always of that sort. FRIENDSHIP, PEACE AND PROSPERITY.

### OR IN-JAIL.

Albany Argus.  
Ex-Mayor Belcher, of Paterson, preaches that old sermon whose text is forever. "Be sure your sin will find you out."

### INFANT MORTALITY.

The attention of the Town Council at Johannesburg, Transvaal, was last year directed to the fact that out of eighty-four infants, who died in December, forty-four of them had died of dysentery. An investigation with a view of tracing the source of the disease was authorized. Under the best of conditions attacks of dysentery are very prevalent among children in warm weather, but in a large majority of cases the lives of the little ones can be saved by the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy. This remedy always brings prompt relief, and has never been known to fail. For sale by all dealers. Benson, Smith & Co., agents for Hawaii.

## THE LEONARD IS BEST

Leonard Cleanable Refrigerators are built with eight walls, each wall as follows: Outside is wood, then dead air space, then a layer of parchment sheathing, then a layer of mineral wool then a waterproof sheathing and finally the inside zinc wall. Air cannot possibly pass through these barriers and the air within is dry and pure. The doors are airtight.

The ice is protected from outside heat and cannot melt rapidly.

Take a match and leave it in the Leonard all night, then strike it. This is the test for dampness. Very few refrigerators can stand it. The Leonard is dry and keeps food pure and fresh.

The Leonard Cleanable Refrigerator is easiest in the world to clean. The inside parts are made to be removed and you can get into every corner. The circulation of air is founded on the latest scientific principles.

It is economical because it saves ice and is strongly constructed. We guarantee satisfaction in every one we sell.

Building Commissioner Bartzen is somewhat vociferous in his methods, but he is right about the billboard monstrosity. The billboard is not only an eyesore but it is a menace to life and limb. It will have to go eventually, though its maintainers may delay the consummation by "testing" the law which calls for its extermination. The billboard nuisance is, of course, based upon property rights; otherwise it could not have persisted as long as it has. But property rights constitute the basis of most other nuisances, too, and other nuisances have been abated—some of them. The billboard, therefore, is not invulnerable.—Chicago Chronicle.
